Re: Case No. 00-1635, Additional Information, Duchesne County Road Department, Duchesne County Asphalt Mine, M/047/028, Uintah County, Utah

Dear Mr. Dykmann:

Enclosed with this letter are the following documents describing the size, nature, and extent of this mine operation to assist you in your task of identifying historic properties:

Division Executive Summary and general location map  
Public Notice published November 1, 2000  
July 27, 2000 Large Mine Operation Notice of Intention submission and map  
April 20, 2000 Large Mine Operation Notice of Intention submission (2 parts) and map

The enclosed Large Mine Operation Notice of Intention submissions constitute the current mining and reclamation plan, with the exception of Division review comments for each of the two submissions. I hope this information adequately supplements the information discussed during our phone conversation of December 15, 2000, and in my December 18, 2000 e-mail message.

The Division has received an adequate reclamation surety from Duchesne County and we are ready to issue final approval pending the outcome of your review. Please contact me at (801) 538-5267 if you require further assistance, or you may also contact Doug Nielsen of Duchesne County at (435) 738-2468. Thank you for your time and efforts in finalizing this review.

Sincerely,

Anthony A. Gallegos  
Senior Reclamation Specialist
